

DHANASHREE SALGUDE

Cleveland, OH | salgudedhanashree14@gmail.com | +1 (216) 612 9251

SUMMARY

Business Intelligence Analyst with experience transforming complex operational and business data into actionable insights to support strategic decision-making. Skilled in data modeling, dashboard development, KPI monitoring, and data visualization using Power BI, Tableau, SQL, and Excel. Proven ability to analyze multi-source datasets, automate ETL processes, and deliver performance insights that improve reporting efficiency and operational performance. Experienced in supporting data-driven decision making, business performance monitoring, and analytics reporting in fast-paced environments.

TECHNICAL SKILLS

Programming & Querying: SQL, Python, R

Databases & Data Management: Microsoft SQL Server, MySQL, Oracle, Relational Database Design, Data Integration, Data Reconciliation, Data Quality Management

Business Intelligence & Data Visualization: Power BI, Tableau, Dashboard Development, Data Visualization, Data Storytelling, Executive Reporting, Operational Reporting

Data Analysis & Business Insights: KPI Analysis, Trend Analysis, Variance Analysis, Historical Data Analysis, Data Validation, Performance Monitoring, Statistical Analysis

ETL & Data Tools: SSIS, Data Extraction & Transformation, Data Pipelines, Data Integration

Tools & Platforms: Microsoft Excel (Pivot Tables, Lookups, Data Analysis), Microsoft Azure, Visual Studio Code

Business & Collaboration Skills: Stakeholder Collaboration, Cross-Functional Communication, Business Process Analysis, Data-Driven Decision Support, Agile/SDLC Support, Project Coordination

PROFESSIONAL EXPERIENCE

Business Analyst Volunteering – Brightmind Enrichment and Schooling, United States

Feb 2026-Currently

- Analyze operational data and stakeholder requirements to identify opportunities for data-driven process improvements.
- Support business teams by translating stakeholder insights into structured reports and actionable recommendations.
- Evaluate existing workflows and data reporting practices to improve business intelligence visibility and decision support.
- Ensure analytics insights align with business goals, operational performance metrics, and project objectives.

Business Intelligence Analyst Intern – Sony Tech.govt, Belagavi, India

Sept 2023-Dec 2023

- Developed interactive Power BI dashboards integrating MySQL, ERP, and operational datasets, reducing reporting time from 8 hours to 30 minutes and improving operational visibility across 5 distribution centers.
- Automated ETL pipelines using SSIS for SAP and 3PL data, improving data accuracy by 95% and saving 12 hours/week in manual reporting.
- Conducted KPI monitoring, trend analysis, and performance analytics to support demand planning decisions, improving forecast accuracy by 22% and reducing excess inventory costs by \$1.2M annually.
- Delivered data insights that enabled business teams to monitor operational performance, supply chain trends, and reporting efficiency.

ACADEMIC PROJECTS

Healthcare analytics dashboard (Power BI) - PAPOLLO Hospitals

- Designed and developed an interactive Power BI dashboard to visualize hospital KPIs including patient flow, diagnosis trends, bed occupancy.
- Integrated and modeled multi-source healthcare data using Power BI and DAX to create dynamic reports and automated performance metrics.
- Delivered actionable insights that improved hospital decision-making efficiency and enhanced visibility across departments.

Infrastructure Enhancement Using Automation in the Food Manufacturing Industry

- Conducted a root cause analysis to identify inefficiencies in manual food production systems, key issues in manpower, methods, and machinery.
- Proposed an AI automated production line integrating robotic arms, IoT sensors, and predictive maintenance to reduce downtime, human error.
- Developed a gradual automation implementation strategy for Greencore's sandwich production line, improving efficiency, minimizing waste, and enhancing food safety.

2025 Women's World Cup Performance Analysis using Data Visualization

- Developed an interactive Tableau data story analyzing the 2025 Women's Cricket World Cup, focusing on top all-round players, match outcomes, and country-level performance consistency.
- Applied advanced Tableau techniques including parameters, calculated fields, and LOD expressions to evaluate batting, bowling, runs scored vs conceded, and overall performance rankings.
- Generated actionable insights by linking individual player performance to match results and identifying consistently high-performing countries.

EDUCATION

Master of Information System | GPA: 3.67/4.0

Dec 2025

Cleveland State University, Cleveland, OH

Bachelor of Computer Science Engineering | GPA: 3.57/4.0

Jul 2023

Visvesvaraya Technological University, India

CERTIFICATIONS AND EXTRACURRICULAR

- Served as Supervisor for the Recreation Center, Cleveland State University
- Successfully founded and operated a Home-Baked Cake Business
- Certified Course ETL and DBMS with MySQL- SonyTech.govt, Belagavi
- Certified Course Python - Engineer's Academy, Belagavi.

2024-2025

2020-2023

Sept 2023

Sept 2021
